International Women's Day 2021

*"A challenged world is an alert world. And from challenge comes change."*

*So let's all #choose to challenge*

[International Women's Day](#) is a global day that celebrates the social, economic, cultural and political achievements of women. Marked annually on the [8th of March](#), the day promotes raising awareness about women's equality and lobbies for gender parity.

At PBD we choose to seek out and celebrate women's achievements.  
We want to create an inclusive world, where every voice is heard and respected.

Our team is made up of creative and talented women, who contribute greatly to our office culture and design output. Below we take a look at our upcoming developments that the talented women in our office have designed and are managing.

**5 Colindia Avenue, Neutral Bay**

Colindia comprises of 6 half floor residences and a full floor penthouse at the end of a quiet cul-de-sac. Nestled in the sloping topography, it presents a 2-storey building from Colindia Avenue, and allows for an additional 2 storeys to be achieved towards the rear. Every design aspect of this luxury development responds cohesively to the existing neighbourhood and streetscape.

Our director Paul, elaborates on the concept behind Colindia Avenue, Neutral Bay.

***"We approached these residences as a sculpted artform, inspired by natural, organic fluid forms and materials. The use of curved walls creates a soft and inviting spatial experience, with masonry elements that accentuate verticality."***

**New South Head Road, Rose Bay**

Our Rose Bay development proposes the retention and restoration of the existing residential building and an addition of 6 apartments designed with respect to the heritage significance of the site.

The new extension has a modern and clean aesthetic. It features carefully designed building elements such as metal framing, vertical screens and walls with groove lines, that reflect solidity and structure.

A similar palette of materials, the proportions of the building form and attention to detail ensures a consistent building language throughout the development.

## **Contour, Cronulla**

Contour Cronulla is an upcoming residential development comprising of 9 luxury residences, that provide a high level of amenity for future residents to enjoy.

The development sees a highly sculptural building form composed with splayed balconies. The dynamic recesses, give the building a distinct form and contribute to the visual interest of the Roker St streetscape.

## O'Sullivan Road, Bellevue Hill

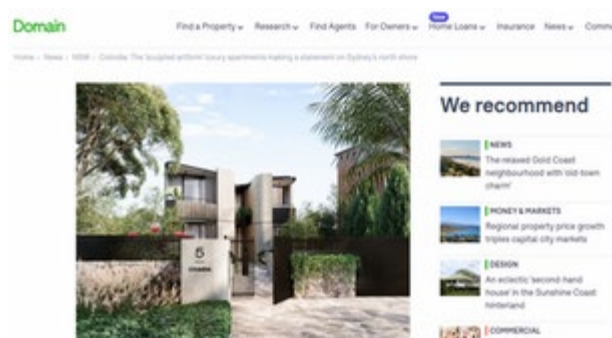

Our development on O'Sullivan Rd, proposes the construction of a 3-storey residential building comprising of 15 apartments and basement parking.

The building features highly articulated facades that incorporate carefully-designed building elements. The external building is defined and characterised by its articulated form, open corner balconies, featured curved blade walls, metal battens and planter boxes, which create an interesting architectural pattern.

Colour and material selections have been made to create a consistent building language throughout the development. It aims to provide a strong visual link from the street and enable the seamless transition to the surrounding context.

## CONNECT WITH US

The general Ethos of PBD is a balance between innovative Architecture, efficient planning and interior design which meets the specific needs of the intended target audience.
